Ellicott City, MD 21042 ▪ 443-832-8976 ▪ ichen2467@gmail.com ▪ <https://www.linkedin.com/in/isaac-h-chen/>

EDUCATION

Bachelor of Science in Computer Science

August 2021 - July 2025

University of Maryland, College Park

Relevant Coursework: Computer Systems, Computer & Network Security, Web Application Development, Data Structures, Databases, Parallel Computing, Machine Learning, Data Science, Algorithms, Handheld Systems

TECHNICAL SKILLS

Platforms (Operating Systems & Cloud): Linux (Ubuntu), Windows Server, macOS, AWS

Languages: Python, Java, JavaScript, C, SQL, PostgreSQL, OCaml, C++, HTML/CSS, Ruby

Networking: TCP/IP, DNS, DHCP, VPN, Firewalls, Subnetting, Cybersecurity

Tools: Active Directory, PowerShell, Bash, VMware, Docker, Git, Microsoft 365

CERTIFICATIONS

AWS Certified Cloud Practitioner

WORK EXPERIENCE

Sleepytales

Ellicott City, MD

Software Engineer Intern

May 2024 - September 2024

- Developed a Python automation tool to collect and organize data from 1,000+ sources, improving internal content processing efficiency
- Assisted with deployment and updates of web platform content and features in a collaborative development environment.
- Worked in an Agile remote team, coordinating with developers to deliver updates and maintain platform functionality.

Hailbytes

Laurel, MD

Technical Analyst Intern

June 2023 - August 2023

- Analyzed web platform performance using Google Analytics, identifying system-level improvements for performance and reliability.
 - Assisted in researching documenting cloud infrastructure and cybersecurity practices for internal technical resources.
 - Supported distributed engineering teams with technical documentation, troubleshooting, and system monitoring insights.
-

PROJECTS

Full-Stack Habit Tracking Web App

React, Node.js, Express, PostgreSQL, JWT, TailwindCSS, Docker, AWS

January 2026 - Present

- Built a habit tracking platform with secure JWT authentication, streak tracking, and habit analytics.
- Designed PostgreSQL schemas to support efficient querying and data visualization.
- Developed responsive React components styled with TailwindCSS and deployed the app via Docker on AWS EC2.
- Implemented backend REST APIs with Express and optimized user flows for fast, reliable interaction.

PomoPal — Android

Kotlin, Firebase

October 2024 - December 2024

- Designed and developed an Android productivity app combining a Pomodoro-style timer and task tracking to improve focus and organization.
- Implemented Firebase Authentication and Firestore for secure cloud-based data management and real-time task persistence.
- Built a responsive Android UI using XML layouts and Jetpack components, featuring a gamified, customizable virtual pet that rewards consistent productivity.
